

THE IELTS GRIND. SOCIAL MEDIA. TRANSCRIPT

Which Social Media Websites Do You Use The Most?

That's a very interesting question. I would say because of my age I tend to use Facebook quite often and also YouTube, but I use them in slightly different ways. I would say that Facebook is a great website for organizing events for catching up with old friends and to generally see what's happening about the town. YouTube is much more different. Personally I use YouTube more as a informative sort of platform. I like to watch a lot of documentaries which help me gain more knowledge about topics that I'm interested in. I also like to watch it to learn new skills. I tend to fall victim to cats and sort of funny events as well, but mostly I'm watching it to inform myself about topics.

How Often Do You Use Social Media?

I would say like most people it's an everyday occurrence. Perhaps I use it a little bit more than I should do. My normal routine is when I wake up in the morning and I'm attending to my everyday business let's say (going to the toilet) I tend to look at Facebook to see what's new to see if I've had any new comments or perhaps any new events are happening and I like to watch YouTube when I'm commuting to work and home from work.

VOCABULARY

Catching up (phrase/idiom) - making up for lost time or progress

Commute (verb) to travel regularly between home and work

Inform (verb) - to give information or tell someone something

Occur (verb) - to happen or take place

Tend (verb) - to be inclined to do something or to take care of something

Victim (noun) - a person harmed, injured, or killed as a result of a crime, accident, or event
